## Featured Chromatography Products

[Purospher STAR RP-18 Endcapped UHPLC Columns](#)

### Purospher STAR RP-18 Endcapped UHPLC Columns

Available in 2 µm and 3 µm particle sizes, these Purospher STAR RP-18 endcapped UHPLC columns are ideal for ultra-fast chromatography applications, such as high-throughput screening, process monitoring, QC analyses, and LC/MS, giving you ultra-high resolution, performance, and stability. With a pH range of 1.5 to 10, and optimized for a very wide range of compounds, they are the perfect columns to start any new method development with — "the ones to choose first".

### OmniSolv® Solvents

OmniSolv brand solvents are our premier brand of solvents for the most critical laboratory or manufacturing applications. Highly distilled and purified, these solvents must pass the most rigorous specification testing in order to bear the OmniSolv name. All OmniSolv solvents list lot specific, complete testing results on every label so you know you are getting the best solvent, all of the time, every time.
